

Casa Systems and Google Cloud to Advance Cloud-Native Software and Service Offerings

August 23, 2022

The strategic partnership will empower Casa Systems and Google Cloud to collaborate across innovative technology programs and joint sales, marketing, and support initiatives globally

ANDOVER, Mass., Aug. 23, 2022 (GLOBE NEWSWIRE) -- Casa Systems (Nasdaq: CASA) today announced a strategic technology and distribution partnership with Google Cloud to further advance and differentiate Casa Systems and Google Cloud's integrated cloud native software and service offerings. The partnership also provides for formalized and coordinated global sales, marketing, and support engagement, whereby Casa Systems and Google Cloud will offer Communication Service Providers (CSPs) and major enterprises integrated Google Cloud-Casa Systems solutions for cloud-native 5G core, 5G SA multi-access edge computing (MEC), and enterprise mobile private network use cases.

This new partnership enables Google Cloud and Casa Systems' technical teams to engage deeply with one another to enable the seamless integration of Casa Systems' cloud-native software solutions and network functions with Google Cloud, for best-in-class solution offerings with optimized ease-of-use and support for telecom and enterprise customers. Furthermore, Casa Systems and Google Cloud will also collaborate on the development of unique, new features and capabilities to provide competitive differentiation for the combined Google Cloud-Casa Systems solution offering.

Additionally, this partnership provides the companies with a foundation on which to build more tightly coordinated and integrated sales efforts between Casa Systems and Google Cloud sales teams globally.

"We are delighted to formalize our partnership with Google Cloud and more quickly drive the adoption of our cloud-native 5G Core and 5G SA MEC solutions, as well as our other software solutions," said Jerry Guo, Chief Executive Officer at Casa Systems. "This partnership provides the foundation for Casa Systems and Google Cloud's continued collaboration, ensuring we remain at the cutting edge with our cloud-native, differentiated software solutions, and that the products and services we offer our customers are best-in-class and can be efficiently brought to market globally. We look forward to working with Google Cloud to develop and deliver the solutions customers need to succeed in the cloud, and to a long and mutually beneficial partnership."

"We are pleased to formalize our relationship with Casa Systems with the announcement of this multifaceted strategic partnership," said Amol Phadke, managing director and general manager, Global Telecom Industry, Google Cloud. "We have been working with Casa Systems for over two years and believe that they have a great cloud-native 5G software technology platform and team, and that they are a new leader in the cloud-native 5G market segment. The partnership will enable a much wider availability of premium solutions and services for our mutual telecommunications and enterprise customers and prospects."

About Casa Systems, Inc.

Casa Systems, Inc. (Nasdaq: CASA) delivers the core-to-customer building blocks to speed 5G transformation with future-proof solutions and cutting-edge bandwidth for all access types.
